

# 2018

## Support a Sustainable Environment and Fair Migration

---

Dear Friends of MASCP,

This painting was given to the people of Madison and Wisconsin over 30 years ago as our sistering relationship began in 1986.

Times have changed and now our mutual solidarity from South to North and North to South is more important than ever as we organize together to continue to challenge and change the very structures that oppress people on both sides of the border.

With **your support**, in 2018 MASCP and U.S. El Salvador Sister Cities will continue to:

- Defend our basic human right to water and fight against mining (now again so important in Wisconsin)
- Organize through popular education and act with progressive local, national and Salvadoran groups, particularly those lead by youth
- Defend immigrants rights here in the U.S. and in El Salvador
- Support youth from Arcatao with university scholarships

**From all of us at MASCP, we wish you a very Happy New Year, and thank you for being a part of sistering!**
